TABLE OF CONTENTS

NUMBER 1, SEPTEMBER 1974

Daskal, Y, Prestayko, A W & Busch, H, Ultrastructural and biochemical studies of the isolated fibrillar component of nucleoli from Novikoff hepatoma ascites cells 1

Coutelle, C, Belkner, J, Prehn, S, Rosenthal, S, David, H & Dreher, R, Investigations on chromatin condensation of hen erythrocyte nuclei in vitro. An ultrastructural and biochemical study 15

Schuel, H, Kelly, J W, Berger, E R & Wilson, W L, Sulfated acid mucopolysaccharides in the cortical granules of eggs. Effects of quaternary ammonium salts on fertilization 24

Schreck, R R, Erlanger, B F & Miller, O J, The use of antinucleoside antibodies to probe the organization of chromosomes denatured by ultraviolet irradiation 31

Mastro, A M & Mueller, G C, Synergistic action of phorbol esters in mitogen-activated bovine lymphocytes 40

Trosko, J E & Yager, J D, A sensitive method to measure physical and chemical carcinogen-induced "unscheduled DNA synthesis" in rapidly dividing eukaryotic cells 47

Evans, P M & Jones, B M, Studies on cellular adhesion-aggregation. Consideration of involvement of concanavalin A receptors 56

Bandmann, U, Rydgren, L & Norberg, B, The difference between random movement and chemotaxis. Effects of antitubulins on neutrophil granulocyte locomotion 63

Koizumi, S, Microinjection and transfer of cytoplasm in *Paramecium*: Experiments on the transfer of kappa particles into cells at different stages 74

Knowles, J K C, An improved microinjection technique in *Paramecium aurelia*. Transfer of mitochondria conferring erythromycin-resistance 79

Matsui, S, Structural proteins associated with ribosomal cistrons in *Xenopus laevis* chromosomes 88

Absher, P M, Absher, R G & Barnes, W D, Genealogies of clones of diploid fibroblasts. Cinemicrophotographic observations of cell division patterns in relation to population age 95

Sekeris, C E, Richter, K H & Marx, R, Isolation of nuclei from epidermis cells of larvae of the blowfly *Calliphora vicina* R.-D. 105

Tisdale, M J & Phillips, B J, Apparent correlation between adenosine 3′,5′cyclic monophosphate levels and malignancy in somatic cell hybrids 111

Nakamura, M & Yasumasu, I, Change in the calcium-binding capacity of sea urchin egg homogenate caused by treatment with ATP and magnesium ions 121

Egel, R & Egel-Mitani, M, Premeiotic DNA synthesis in fission yeast 127

Kagen, L J & Freedman, A, Studies on the effects of acetylcholine, epinephrine, dibutyryl cyclic adenosine monophosphate, theophylline, and calcium on the synthesis of myoglobin in muscle cell cultures estimated by radioimmunoassay 135

Wainwright, S D & Wainwright, L K, Isolation of two erythropoietic cell populations from the early chick blastodisc and the further resolution of one into two essential subpopulations 143

Rabinovitch, M & DeStefano, M J, Macrophage spreading in vitro. III. The effect of metabolic inhibitors, anesthetics and other drugs on spreading induced by subtilisin 153

González-Fernández, A, Giménes-Martín, G, Fernández-Gómes, M E & de la Torre, C, Protein synthesis requirements at specific points in the interphase of meristematic cells 163

de la Torre, C & Navarrete, M H, Estimation of chromatin patterns at G1, S and G2 of the cell cycle 171

Ellem, K A O & Mironescu, S, The mechanism of regulation of fibroblastic cell replication. III. A central role for nutrient limitation: A conditioning effect due to serum imprinting of the cell response 175

Torelli, U, Torelli, G & Cadossi, R, Double-stranded ribonucleic acid in human lymphocytes 188

Dahl, I M, Johnsen, W, Anseth, A & Prydz, H, The synthesis of glucosaminoglycans by corneal stroma cells in culture 193

Suchy, J & Cooper, C, Isolation and respiratory measurements on a single large mitochondrion 198

Ebina, T, Miao, R & Watanabe, Y, Transfer of chromosomal material. Association of rescuable sarcoma virus genome with the chromosomal fraction 203

Nations, C, LeStourgeon, W M, Magun, B E & Rusch, H P, The rapid intranuclear accumulation of preexisting proteins in response to high plasmodial density in *Physarum polycephalum* 207

NUMBER 2, OCTOBER 1974

Yefenof, E & Klein, G, Antibody-induced redistribution of normal and tumor associated surface antigens 217

Gersten, D M & Bosmann, H B, Behavior in two-phase aqueous polymer systems of L5178Y mouse leukemic cells. II. The lag and exponential phases of growth 225

Bölcsföldi, G, A correlation between the polysome pattern and the synthesis of transfer RNA in Chang's liver cells 231

Nakahashi, T & Yamana, K, Modification of culture medium for *Xenopus* embryonic cells. I. Effects of albumin and other proteins 241

Varon, S, Raiborn, C & Norr, S, Association of antibody to nerve growth factor with gangli-onic non-neurons (glia) and consequent inter-ference with their neuron-supportive action 247
Kluge, N, Gaedicke, G, Steinheider, G, Dube, S & Ostertag, W, Globin synthesis in Friend-erythroleukemia mouse cells in protein- and lipid-free medium. Effects of dimethyl-sulf-oxide, iron and erythropoietin 257
Cimino, M C & Bahr, G F, The nuclear DNA content and chromatin ultrastructure of the coelacanth *Latimeria chalumnae* 263
Hartmann, R & Shapiro, B M, On the synthesis of glutamine before and after fertilization of the sea urchin, *Strongylocentrotus purpuratus* 273
Arborgh, B, Glaumann, H, Berg, T & Ericsson, J L E, Isolation of Kupffer cell lysosomes, with observations on their chemical and enzymic composition 279
Cox, R P, Krauss, M R, Balis, M E, Yip, L C, Jansen, V & Dancis, J, Incorporation of hypo-xanthine by PHA-stimulated HPRT-deficient lymphocytes 289
Sato, K & Shiomi, T, Isolation of temperature-sensitive mutants from murine leukemic cells (L5178Y) 295
Tsuzuki, J & Loeb, J, In vitro phosphorylation of chicken erythrocyte histone by various protein kinases: Absence of phosphorylation from F1 histone 303
Furcht, L T & Scott, R E, Influence of cell cycle and cell movement on the distribution of intra-membranous particles in contact-inhibited and transformed cells 311
Stein, G S & Burtner, D E, Utilization of pre-existing messenger RNAs for nonhistone chromosomal protein synthesis in WI-38 human diploid fibroblasts 319
Rajaraman, R, Rounds, D E, Yen, S P S & Rem-baum, A, A scanning electron microscope study of cell adhesion and spreading in vitro 327
Yasmineh, W G & Yunis, J J, Localization of repeated DNA sequences in CsCl gradients by hybridization with complementary RNA 340
Muramatsu, M, Hayashi, Y, Onishi, T, Sakai, M, Takai, K & Kashiyama, T, Rapid isolation of nucleoli from detergent purified nuclei of vari-ous tumor and tissue culture cells 345
Fukasawa, H & Hamada, Y, Properties of soluble chromatins isolated from apical and axial parts of cauliflower inflorescence 352
Goldstein, S & Singal, D P, Senescence of cul-tured human fibroblasts: Mitotic versus meta-bolic time 359
Fulton, C, Axenic cultivation of *Naegleria gruberi*. Requirement for methionine 365
Rao, M V N & Chatterjee, S, Regulation of nuclear DNA synthesis in Amoeba interspeci-fic hybrids 371
Moore, G P M, Auer, G & Zetterberg, A, Reac-tivation of nuclear RNA polymerase activity in growth stimulated epithelial cells 375
Zetterberg, A, Auer, G & Moore, G P M, Effect of plasma membrane contact between cells on uridine incorporation and RNA polymerase activity 382
Kaplan, J G & Bona, C, Proteases as mitogens: The effect of trypsin and pronase on mouse and human lymphocytes 388
Fujita, S, Analysis of cytokinetics by means of Feulgen cytofluorometry combined with ^{3}H-thymidine autoradiography 395

PRELIMINARY NOTES

Molinaro, M, Zani, B, Martinozzi, M & Monesi, V, Selective effects of actinomycin D on myo-sin biosynthesis and myoblast fusion during myogenesis in culture 402
Kim, M A & Grzeschik, K H, A method for discriminating murine and human chromo-somes in somatic cell hybrids 406
Sekiguchi, T, Sekiguchi, F & Tomii, S, Com-plementation in hybrid cells derived from mutagen-induced mouse clones deficient in hypoxanthine-guanine phosphoribosyl-trans-ferase activity 410
Flickinger, C J, Radioactive labeling of the Golgi apparatus by micro-injection of individual amebae 415
Forabosco, A, Couturier, J & Dutrillaux, B, Effets du pH sur la coloration par l'acridine orange des chromosomes humains 418
Nemoto, S & Yanagisawa, T, Changes in argi-nine phosphate levels during early development of sea urchin embryos 422
Tien Kuo, M, Hsu, T C & Saunders, G F, In situ RNA synthesis in fixed mammalian chro-mosomes 424
Caspersson, T, Lomakka, G, Zech, L, Issler, P, Kudynowski, J & Kvarnström, K, Rapid techniques for counting and analysis of chro-mosome aberrations 427
Ege, T, Krondahl, U & Ringertz, N R, Intro-duction of nuclei and micronuclei into cells and enucleated cytoplasms by Sendai virus induced fusion 428
Pechen, A M & Bazan, N G, Membrane ^{32}P-phos-pholipid labeling in early developing toad embryos 432
Condeelis, J S, The identification of F actin in the pollen tube and protoplast of *Amaryllis belladonna* 435
Berg, W E, Heterogenous nuclear and cytoplas-mic RNA in Li-treated sea urchin embryos 439
Frengley, P A, Peck, W A & Lichtman, M A, Accelerated active transport of alpha amino-isobutyric acid by human leukemic leukocytes in an amino acid deficient environment 442
Brun, R, The response of *Xenopus laevis* oocytes to injected somatic nuclei soon after germinal vesicle breakdown induced in vitro 444
